MEMO TO: Participants in Monthly Market Trend Report

SUBJECT: Monthly Market Trend Report

Attached is the June report. I thought I should offer some comments which I trust will be helpful in interpreting the report. And, I would appreciate any thoughts you might have in a somewhat confusing year.

1. Be sure you understand that the absence of some major firms this year have reduced the raw numbers. I judge that this alone reduces the June monthly shipment percentage by 2%. Of course, I have no real knowledge of how much of this business was picked up by others in the industry and reported.

2. For what it is worth NPD indicates that toy retail sales through May were down 12% as compared to the same period in 1982 (video games excluded).

3. An informal survey of perhaps eight manufacturers indicates this pattern:

   - Strong orders on hand but cautious and slow releasing of the orders;

   - Very selective purchases by retailers concentrating on hot items and no reluctance to take these in;

   - Expected steady improvement in business each month hereafter.
